AVIATION TRAINING MANAGEMENT
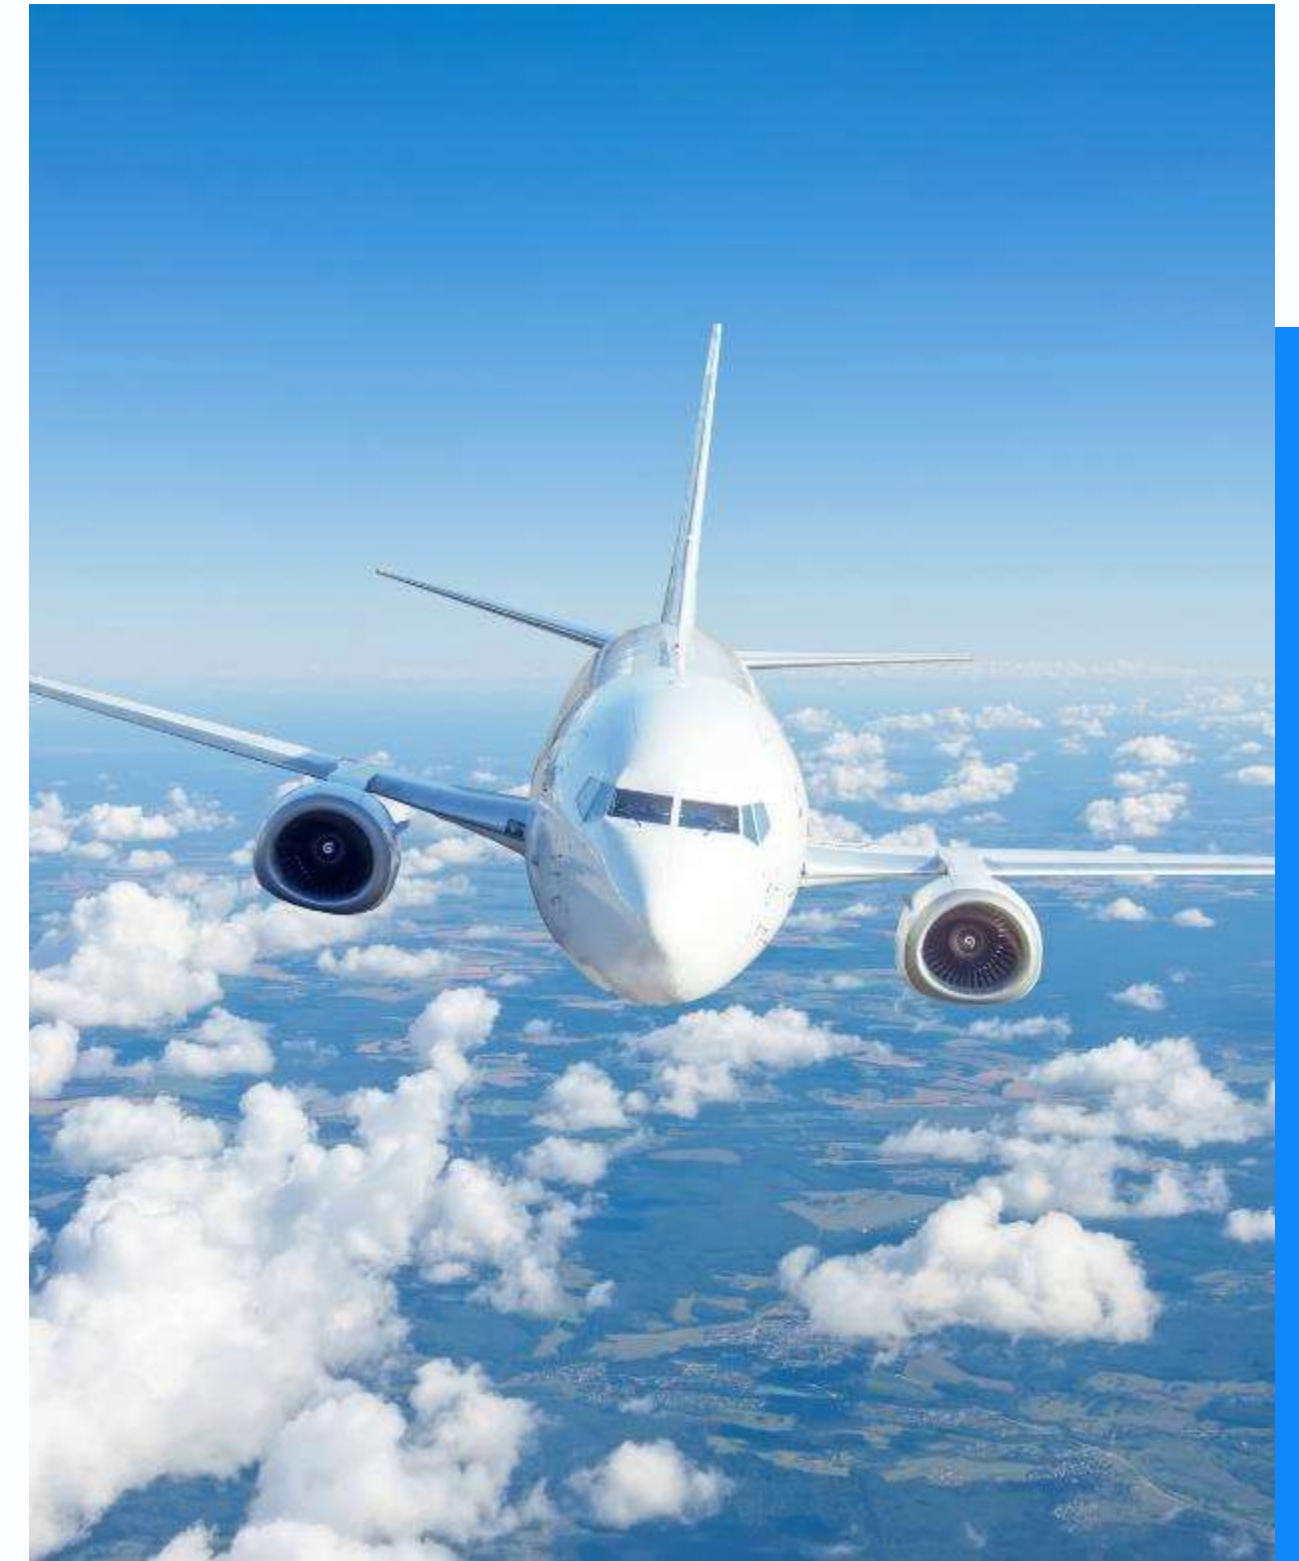

CARLO DE COCQ
MANAGING DIRECTOR

NAVIGATING THE
# COMPLEX WORLD OF
AVIATION

1 The aviation industry faces continuous technological advancements and a globally distributed workforce.

2 Modern aircraft and evolving airworthiness directives require frequent skill updates, while cybersecurity threats add new layers of risk.

3 Organizations need integrated, adaptable systems to ensure efficient, safe, and compliant training.
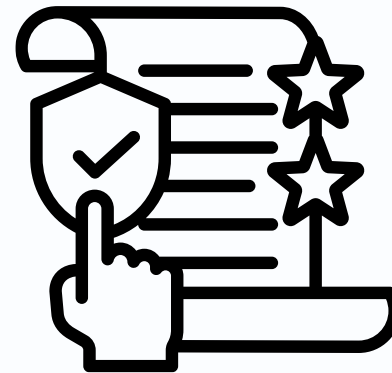

WHY **TRAINING MANAGEMENT SYSTEMS** ARE ESSENTIAL

EFFICIENCY

Streamlined training saves time and reduces costs.

REGULATORY COMPLIANCE

Ensures alignment with standards from bodies like ICAO, EASA, and FAA.

ERROR PREVENTION

Maintaining up-to-date training and feedback systems reduces human error.

# CYBERSECURITY THE NEW FRONTIER WITH PART-IS

New Standards

Part-IS mandates proactive cybersecurity measures to protect data and systems.

Cybersecurity in Training

Training programs must now incorporate cybersecurity protocols.

REAL-WORLD
IMPACT

CONSISTENT TRAINING DELIVERY

STANDARDIZED QUALITY CHECKS

IMPROVED EFFICIENCY
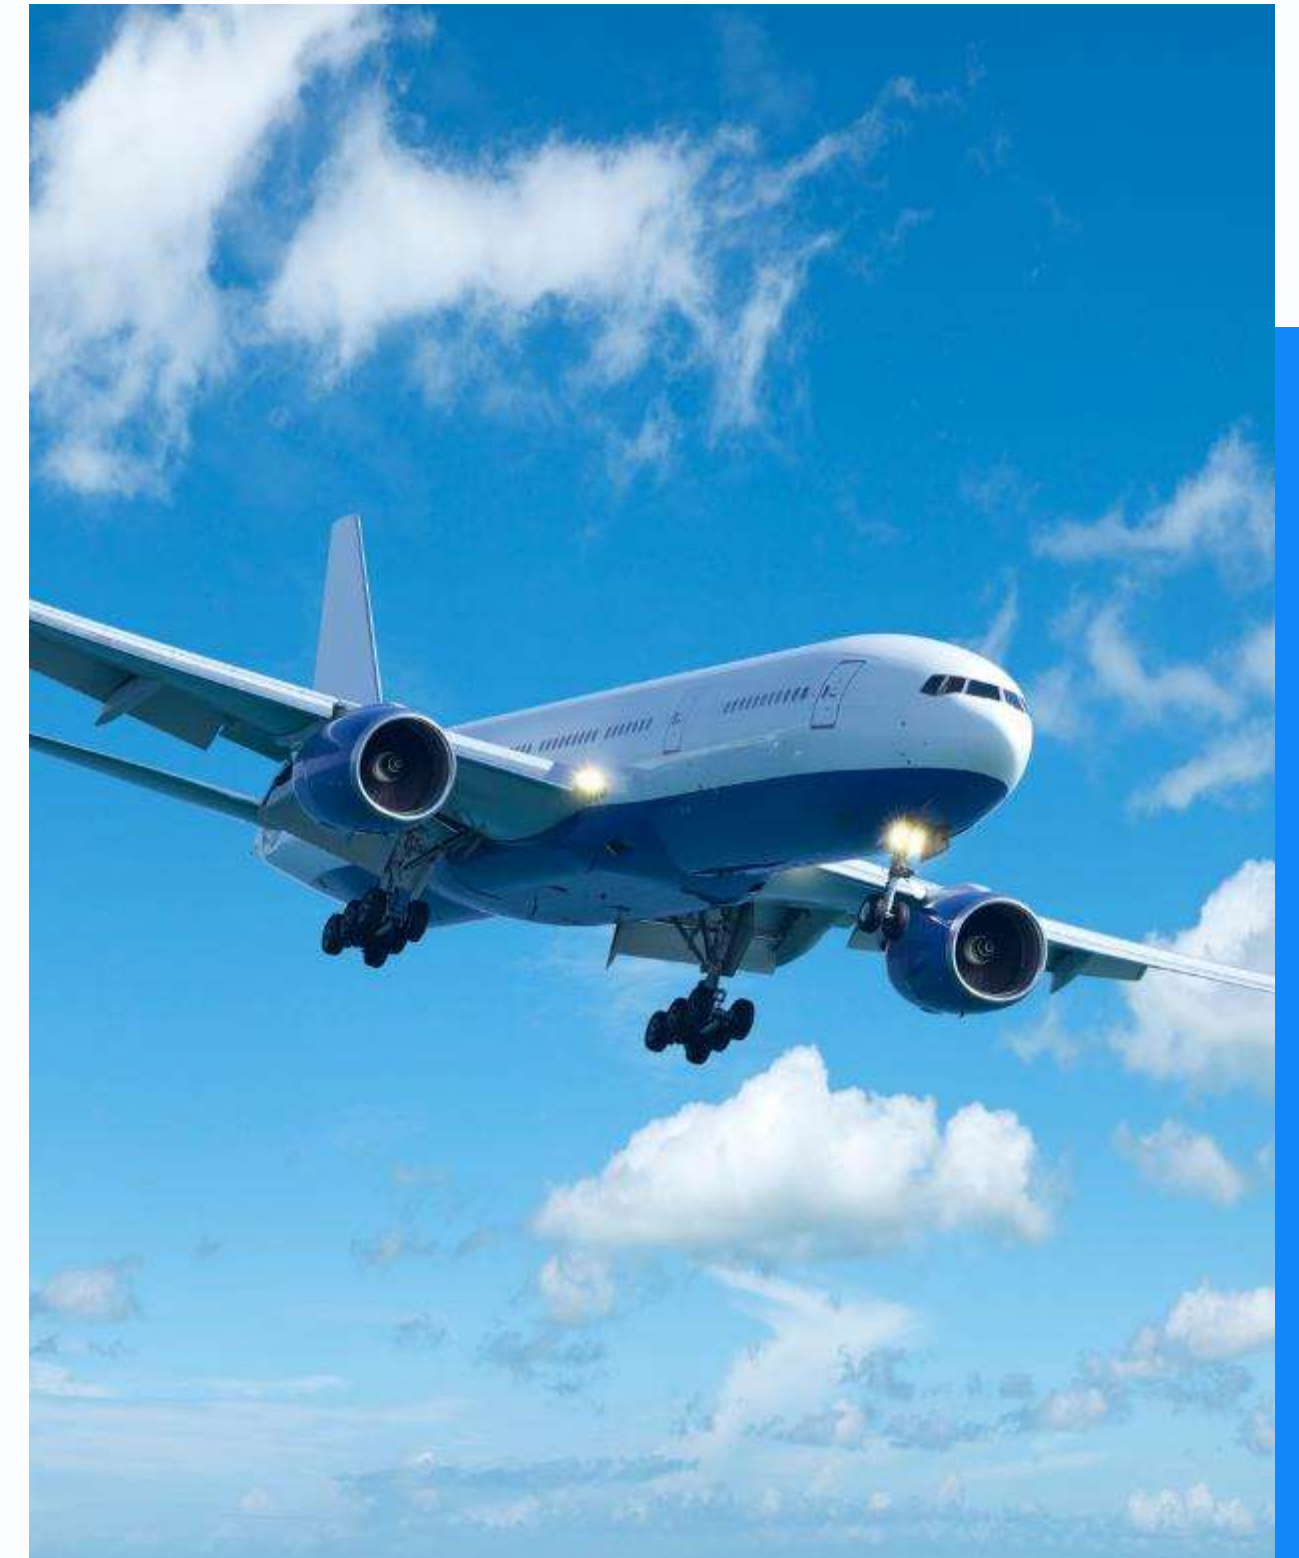

FOSTERING A PROACTIVE CULTURE IN AVIATION

Continuous Learning to encourage targeted training updates, enhancing safety and proficiency.

Engagement and Accountability to create a culture where training is valued as a professional growth opportunity.

Rewarding Best Practices to drive staff motivation.

AviTMS is committed to transforming **training management** to deliver a safer, more efficient, and **proactive aviation sector.** We look forward to building a future where excellence in training is the norm.
